GRAVES ARE OPENED

...PROLOGUE...

Welcome to the second issue of Genital Grinder,well it took a long time since the first issue was out('bout I year and a half),and through this time many things have changed.I wanted to make various 'zines for various themes,but after I-2 months that I started them,I split 'em up.Finally I decided to reform Genital Grinder back in June '90,but because of various problems,this issue was a bit delayed.As you have noticed Genital Grinder is now something like a newspaper and not an encyclopedia as it used to be,see I'm now interested more in the independent scene cos the metal scene is full of assholes and falses,and also grind noise is dead.Still,I wanna support bands,'zines,labels from the metal scene who are not sold out.Another reason that I changed the layout is that now I have the chance to release the 'zine more often.

Some people might think that the 'zine's now sold out,that's not true,still G.G. remains a totally non profit underground 'zine,otherwise don't forget that I do what I do just for fun and mainly to help the people I like and to promote them so that more people will learn about them.Please do notice that the first issues of the new lay out are in an experimental stage.

That's all guys,support the scene,stay underground!

You can contact me at:Nicolas "G.G.",60 Skra st.,176 73 Kallithea,Athens,Greece.

P.S.:Labels,bands,'zines send promo copies of your work and get a sure review plus a free copy of the 'zine as well.

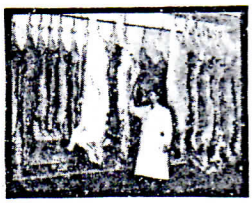
BRIGHTER DEATH NOW

BRIGHTER DEATH NOW is a Swedish repulsive death industrial act, that was build by the bricks of Lile Rogers in 1988. Their lyrics are about our death philosophy and until now they have released 3 tapes but only "Pain in progress(CMI 03)is their best and the most by Nicolas"G.B." representative for what they are doing, the other 2 were made most out of fun.

About their musical influences, Roger says"I don't ideologise any artist but there are some few which I have a great deal or respect for, but it ain't always their music I listen to most." About the Swedish underground death/industrial scene Roger says" It's growing slowly. Unfortunately the persons behind the bands are very young and don't have any deeper aim with their music. Recently B.D.N. had their debut lp on Cold Meat Industry rec.s titled "Great Death". Cold Meat Industry is a cool Swedish label that makes mainly industrial stuff. The guy behind this label is Roger from BDN. Until now he has produced stuff from Swedish acts, and will continue so as long as there comes good music from his country.



Cold Meat Industry

Elsa Brändströmsg. 4, S-582 27 Linköping
Sweden

We established Cold Meat Industry 1987 as a label for Swedish industrial music in the darker vein. As the label has developed, we have got more and more interested in art and design. Our future ambitions is to create a multiart network where we and our artists can explore new ways to express ourselves.

HANDS TO

HANDS TO is a cool one man industrial projekt.The act was started back in '85.The first couple of tapes(Q'OJFA,DO NOT TOUCH THEM,FINGERS BREATH,and NEUMES)were all music.At that point Jerman realised that a lot of the pieces he was recording were having a definite affect on his body/mind when he was listening back to them,so he decided to investigate this.After that,he only used sounds that had an emotional content or were associated with a very emotional experience e.g.a baby crying,any disaster where lots of people died or where otherwise affected,sex,etc...He then took these sounds and disguised them,layering sounds on top of sounds so their origin could not be ascertained.He then played the sounds/pieces at people to see if they could feel that emotional content of the sounds.He's found that this only works some of the time,with some people.For this Jerman says"I think that one has to be a good listener,not someone who generally listens to music for entertainment purposes."And adds"I do not consider HANDS TO works to be musical.They are sounds being used to impart information,yes,but their logic is not the logic of any musical system that I know of.. I guess it's up to the listener then".

At this time Jerman is preparing a split 7" with Kapotte Muziek and the "Flatline"lp(it'll be available from PETRI SUPPLY sometime later this year).Flatline deals in sounds made by or associated with,people who are no longer living(?!!!).He's come to think of the process of recording involved in Hands To as flatlining Jerman says that"an acoustical term meaning an uncharging sound that is constant".Hands To has played a couple of gigs in Colorado springs,Boulder Colorado,etc.Jerman doesn't do it very often because it takes a lot of preparation,he generally uses films in addition to sound in his live work,and he has to make a lot of new films each time.

LOBOTOMY

Hail to all you death/grinders!!!I'm John,the editor of Lobotomy 'zine.Two years ago my friend George and me decided to make a 'zine with the name Greek Metal.We wanted to feature any kind of greek HC, thrash,death,grind bands.So,we made our first issue,which was made for fun.In the second issue the things went more serious and then we had our 3rd issue out.Six months after the release of the 3rd issue I decided to make my own 'zine,to feature many death metal/grind bands and to put a good gore layout in it and tons of reviews.The reason I started this 'zinesis that I wanted to make something for the music I love.In the beginning I had many problems,I couldn't find a good shop to print my 'zine,I didn't have much free time,etc.Finally after 6 months,I released the first issue.It contained some interviews with bands like:Merciless,Thanatos,Asphyx,and many,many more as well as many articles and tons of reviews!And of course a deadly lay out!!!I still have many economical problems but I think and I'll try to put out a 2nd issue much better than the first!If anyone out there can write for Lobotomy a scene report of his country,just do it now!I won't rip anybody off!That's all,the first issue is available for 3$.My adress>John Georgakoudis/Parodos Dimitras 5/68100 Alexandroupolis/Greece
